

Every architecture converges exactly where the metric is accumulated

(a) Test ADE by time to tackle

(b) Share of the frame-averaged metric

- Naive: tackled where he stands
- Naive: constant velocity
- Naive: constant velocity, oracle horizon
- Zoo convolutional, published [5]
- Transformer, published [3]
- Windowed transformer
- Pure GRU (no interaction)
- Hybrid ST (space → time)
- Hybrid TS (time → space)
